WELCOME WONDERFUL

This book was created as a special gift just for

It is a celebration of wonderful YOU!

WELCOME

Welcome Wonderful
One

On the day you were born
Time seemed to stop
As we held you for the first time
We thought our hearts would pop!

Everything has changed
It all seems brand new

We're filled with awe and wonder
Emotions sweet and true

We thought we knew joy
We thought we felt love
But when you arrived
Our hearts burst
Like rain clouds above

Every new day
There will be much to discover

As you grow bigger
More surprises to uncover

Oh, the fun we will have
Dream like never before

So many memories to make
A big world to explore

We can't wait to see
All that life has in store
There is so much to learn

We know you will soar!

We'll do all that we can
To guard and protect you
And give you the best life
Wherever it takes you

There will be ups and downs
As you travel through life

But you won't be alone
We'll be there through the strife

Even on bad days
We'll be by your side
Cheering you onward
You're our joy and our pride

You'll get older and taller
As the years go by
We'll celebrate new milestones
As you spread your wings and fly!

And cherish every moment
Whether you're asleep or awake
